Dear Ladies and Gentlemen

The Department of Functional Food Products Development,
the Wrocław University of Environmental and Life Sciences
together with the Polish Food Technologists' Society Wrocław

are delighted to announce our upcoming 10th conference on "Quality and Safety in Food Production Chain", a pivotal event dedicated to address the critical aspects of ensuring the highest standards in food production, analysis and distribution. This conference aims to bring together industry experts, researchers, and professionals to share insights, discuss challenges and explore innovative solutions for maintaining the integrity of the food production chain.

**10th International Conference
on
"QUALITY AND SAFETY IN FOOD PRODUCTION CHAIN"
will take place in
Wrocław at 12-13 September 2024**

Plenary Sessions within the Conference (English only) will cover the following issues:

1. Innovative food products, nutrition and consumer behaviour.
2. New trends in food technology and packaging systems
3. Food analytics
4. Traditional, regional and functional food
5. Quality and Safety Systems in food production chain

The conference fee i.e. 250 Euro regular and 200 Euro discounted for students and PhD students covers conference proceedings, lunches and coffees, banquet, publishing of granted papers. The fee does not cover travel and accommodation costs. Posters will be presented only in electronic form.

More details are coming very soon.
